

UNIVERGE® Blue

UNIVERGE BLUE® is changing how organizations are communicating, collaborating, and streamlining operational complexity. Whether you're working from your office, or your living room, the UNIVERGE BLUE® CONNECT Desktop, and Mobile Applications ensure your communications and collaborations run smoothly, so everything is business as usual.

UNIVERGE® BLUE

UNIVERGE BLUE® is a fully integrated cloud-based unified communications (UC) solution that combines your phone system, chat, video, screen sharing, file management, and conference calling into a seamless experience that fits with your business size, needs, and work style.

Take your business phone number, conversations, and more with you wherever you go.

FEATURES

- Access all your company contacts.
- Send and receive chats and view conversation history.
- Real-time presence indicators show you if a colleague is available for a quick call or chat.
- Allows mobile devices to become part of the CONNECT phone system.
- Increases workforce flexibility with virtually anywhere, anytime, and on any device accessibility.
- Transcribes voicemail messages to text and email for efficient voicemail handling.

BENEFITS

Features you can easily control - A range of extensive call handling and management features all operated from an easy-to-use web interface.

One number anywhere - Callers only dial one number to reach your desk phone and mobile phone simultaneously.

OPEX service with no hidden costs - You only pay for what you need on a per-user basis as you are not buying hardware. There are no major investment or financing costs to consider. Our solutions benefit from inter-site calls and lower-cost call rates.

Enables flexible working - Work more efficiently by enabling flexible work environments through hot-desking, home working, and incorporating mobile devices.

Number choice - You have total flexibility with the numbers you want to present so you can keep your existing numbers or chose new ones and extend your business reach by using any local area number, no matter where you are located.

Unexpected events won't disrupt your business - As our solutions sit in the cloud, we provide business continuity features that allow your business to function business as usual.
